REDISTRIBUTION SCHEME. Concentration of Forces in Seas Near Old Country.

London, July 14.—The as just completed its schen

has just completed its scheme of naval redistribution outlined by Lord Selborne, former first lord of the admiralty, in December last, by the addition of numericus batticships to the Channel, Atlantic, Mediterranean and reserve squadrons. There are now concentrated in nearby seas no fewer than 45 battleships, all of modern construction, 15 armored and 27 other cruisers, with their accompanying torpede boat flotilias, all ready forwar at an instant's notice, as well as reserve vesels, provided with the nucleus of crews. All of these squadrons will be in immediate touch with the admiralty.

alty.

The Eastern fleet will consist of three groups, with bases respectively at Hongkong, Aden and Sydney, while another cruiser division at the Cape of Good Hope will form a connecting link.

This new concentration has been arranged much earlier than had been expected, owing to the fact that naval developments in Far Eastern waters permit the recal of battleships from the China stations.

FALL OF ELEVATOR. Three Men Injured in Sky-scraper Building in Philadelphia.

Philadelphia, July 17.—An elevator fell from the fifth floor of the Landtiele building, the tallest sky-geraper office building in the city. John C. Bell, district attorney, had one leg broken and was taken to the University of Philadelphia hospital for treatment. Harris Kingston, city solicitor, was also seriously injured internally, as also was the elevator operator.

RUSSIAN POSITIONS

LINEVITCH HAS NOW NEARLY 400,000 MEN

Expected to Make a Great Demonstration Before the Meeting of the Peace Envoys.

Tokio, July 16,-It is officially reported that General Linevitch's force numbers nearly 400,000, and it is reported that he is using water transportation extensively

Manchuria expresses the epimor that Linevitch plans a great demonstration to synchronize the meeting of the plan

ipotentiaries, on the tend real aggression.

It is understood that Capt. Borgun returns permanently to France. JAPANESE CENTRE IS STRONGLY FORTIFEID.

Gunshun Pass, July 16.—Reports that the Russian army is in a precarious situation appear to be without foundation. Investigations made by a correspondent of the Associated Press show that neither flank has been turned, and in fact that the Russian wings are more advanced than the centre.

The Japanese centre is strongly fortified. Many siege guns have been placed along the Chang Turu-Manchuria line and there is a triple ring of forts commanding the Mandarin road.

The Japanese are using a novel elephant frap style of entrenchments, consisting of trenches covered with platforms which are balanced in the middle and which tilt into vertical positions under the feet of the attackers.

MORE BATTLESHIPS WILL SOON BE FLOATED.

Tokio, July 17.—It is expected that the Russian battleships Paltava, Po-beida and Poltava, sunk at Port Arthur, will soon be re-floated. The Korean loan of \$1,000,000 was over-subscribed four times. It was the first of the general loan ever floated in Japan

CHANCES OF CONCLUDING
TREATY ARE REMOTE

New York, July 17.—A Moscow dispatch to the Times says: "A high official closely connected with the peace negotiations, declares that the chances of concluding a treaty have become very remote since the invasion of Sakhalien, which is regarded in high quarters in St. Petersburg as an improper act after Japan consented to negotiate.
"It is also said that M. Witte takes no special powers except those of an ordinary plenipotientiary, qualifying him to make a treaty. The Czar will have to be consulted on every point."

MUST DEFEND OTHER INTERESTS THAN RUSSIA'S.

St. Petersburg, July 17.—The Novoe Vremya to-day prints the following statement of Russia's position, which may be inspired:

"Russia can consent only to such a peace as will not affect the dignity of vital interests to the empire. To act otherwise would be fatal to Russia and would threaten all Europe. Europe no longer believes in Japanese-assurances that she will not restrict European interests in the Far East. Even in England and America the voices of moral instigators can be heard in favor of the indirect interference of the powers to moderate Japan's demands. Our plenipotentiaries must remember that they must defend the interests not only of Russia, but also of the other Caucasian powers, and they will find moral support in Rerlin Pasis. W. Alban.

powers, and they will find moral sup-port in Berlin, Paris, Washington and perhaps even in London, Our army in the field is much stronger than it was fifteen months ago.

"The Hamburger Nachrichten pro-poses that Enrope intimate fo Japan that extreme demands will be resisted by Eu-rope in general, especially Gereary. extreme demands will be resisted by Europe in general, especially Gernany. This is a valuable statement. We mist ascertain the acceptable maximum of our concessions to Japan from the European point of view and act accordingly." The report that M. Shipoff, director of trade, would not accompany the Russian peace mission to Washington is incorrect.

WILL ASK THAT KOREA BE GIVEN INDEPENDENCE.

Honolulu, July 17.—Koreaus here have raised a fund to send Y. T. Yon, a Korean minister, to Washington to see President Roosevelt to ask that efforts be made by the United States in the forthcoming peace negotiations to bring about an agreement by which the Korean nation will become independent within 20, years, if it shows fitness for self-government. Rev. Yon will solicit the good offices of President Rooseveit to ask Japan to grant independence as the United States did Cuba after the Spanish-American war.

DRIVING THE RUSSIANS OUT OF KOREA

Tokio, July 15.—Reliable information has been received here that the Russian forces in Northern Korea have gradually been driven northward since last month,

The latest information from the front, however, reports the advance south of a large force from Vladivostock, but it is believed the Russians will halt at Natiefsk, north of the Tumen, and concentrate their forces to make a resolute stand there against the Japanese advance.

STRIKE CONTINUES.

Railway, Express and Department Stor-Drivers Resolve Not to Give In.

(Associated Press.) Chicago, July 17.—The railway, express and department store drivers having voted to continue the strike, anion leaders predicted that the teamstersistrike would be prolonged until after the convention of the International Brotherhood of Teamsters, which opens in Philadelphia August 7th. The department store drivers decided by an almost unanimous vote to continue. The railway express drivers had taken similar action. Railway express drivers had taken similar action. Railway express drivers voted in a count of 163 for war and 121 for peace. There are more than 700 members of the organization and the light vote that was cast was due to the fact that nearly half of the members of the union obtained employment in other lines.

The frequently deferred plan of Mayor Dunne to take policemen off the wagons of firms affected by the teamsters' strike went into effect to-day in the business district. About 300 policemen were returned to ordinary duties. For a time the business streets and crossings will be guarded by additional policemen. Specially guarded routes to all freight stations will be taken by wagons for the strike affected firms. As a preliminary to the change to-day, the police on wagons in the business district have for a week been in plain clothing instead of uniforms. Chicago, July 17 .- The railway,

ELECTROCUTED. Two Murderers Put to Death in the Elec-tric Chair at Sing Sing.

(Associated Press.) Ossining, N. Y., July 17.—James Breen (white) and Charles Jackson (colored) were put to death in the electric chair at the gain prison to-day. Both executions ever successful.

Breen suffered the death penalty for shooting Capt. William H. Keyes n the latter's saloon in New York city in 89, sum tember, 1993. Breen got into a tignt, and when ordered from the saloon shot keyes, who died almost instantly.

Jackson's crime was an assault with a blunt instrument upon one Chas. W. Rox.—of

bunk instrument upon one Unas. W. Rox-bury, causing a wound which resulted in death. The assault occurred in the Berough of the Bronx in July, 1993. Roxbury was walking in a lonely section with a young woman when he was set upon by Jackson, who robbed Roxbury of jewellery and money.

During the execution of Breen, at the first turning on of the electric current water from a sponge in the helmet dripped down the back of the condemned man and formed an arc on the back of his shirt collar, burning the collar.

JAGUAR ESCAPED.

Two Thousand Passengers and Four Trains Delayed.

Colorado Springs, Cole., July 17.—More than 2:000 people and four passenger trains on the Colorado Midland radrond have been held at tunnel No. 6, two miles west of Manitou, by a fierce South American Jaguar. Refore he was captured the animal clawed Joseph Hennett, of this city, cutting a severe gash across the right leg. Miss Belmont, a passenger on one of the trains, became frightened, and in endeavoring to scale a high cliff fell a distance of twenty feet, breaking her left leg.

The jaguar and a Polar bear occupied two competiments in a large cage that was loaded upon a flat car of the train belonging to a circus. The cage was too high to enter the mouth of the tunnel, and as the cage struck the roof of the tunnel it was ton off and the jaguar escaped. In the efforts to drive it into another cage Bennett received his injuries. The animal was finally placed in a new cage.

VICTORIAN TELLS HOW SHRINERS ENTERTAIN

He was thinking of his experiences in Cleveiand, Detroit and Chicago, where the heat was so intense that he had to change his colso intense that he had to change his col-lar every twenty minutes, where the or-dinary constituted man has to carry a wardrybe around with him in a dress suit case to be able to pursue his avocation in a presentable manner. They say that in Yuma, Arisona, the heat is so oppressive that a dissolute, wicked soldier who had passed into the everlasting limbo was compelled to send for his blankets through a spiritualistic medium his new compelled to send for his blankets through a spiritualistic medium, his new sphere of activity being hyperborean in comparison with the atmosphere of Yuma. Mr. Leeson doesn't think that Yuma or Tuscon, Death Valley or any other inferno could have been appreciably hotter than the several hustling communities in Uncle Sam's territary he

The Moslems are intensely spectacular in their ideas, and while their costume would have extracted burning lachrymal crystals from poor old Mahomet's eyes, they found justification for their departure from the orthodox robes in the applause they received. Even the swarthy fraternalists of Hawaii had their delegation. Attired in magnificent Oriental sumptuousness they handed the high sign to the nobles of Algeria Temple from copper cleft Montana. It was truly a

splendid fraternal display when Kalurah of Binghamton kow-towed to Island of Frisco, when Ramess titured jovially to Lu Lu of Philadelphia—not Luiu, Mr. Leeson wishes it understool, and when British Columbia had a lemonade or ginger ale with Tripoli of Milwaukee.

The delegates were the guests of Harry Collins, at what the host announced with becoming modesty would be a "little coffee and cake" he would like to get the big potentate's definition of a banquet de luxe. B. C. Copper Company's Employees.

Greenwood, B. C., July 15.—A strike organized by a section of the employees has led to the shutting down of the B. C. Copper Company's smelter here. The trouble arose over the employment of a new head feeder to fill the place of the regular man, who was away on his holidays. Several men on the day shift, conceiving that the new feeder was taking another employee's plot from him, induced a number of furnace feeders on the night shift to quit about 11 o'clock hast evening. The regular furnace force was thus reduced to numbers insufficient to handle the work, and, assisted by some men from the tamping floor, Superintendent McAllister and Assistant Superintendent Williams drew saff the furnaces and clement up. The only man who night have had cause to complain of the arrangement motioned above has declared himself, permotioned above has declared himself.

THE SEWERAGE BY-LAW.

In a letter published in another statement with reference to the sewerage by-law which, together with the other by laws, will be voted on by the rate payers of Victoria on Friday next. His portance to the minds of a goodly company of citizens. This is, that the acceptance of the proposal for the raising of additional funds for the extension of the sewers—we hope for the completion of the most important work to which we have set our hands as a municipality—will not involve a cent of additional taxnition. The explanation of Mayor Barnard, an explanation given with admirable terseness and buttressed with figures which cannot be gainsaid, should figures which cannot be gainsaid, should a majority as to make recourse to the of additional funds for the extension of remove any misgivings from the minds of ratepayers as to the advisability of borrowing further sums for sewer extension er.

purposes at the present time.

We shall quote the words of the Mayor bearing on this question in order that none of our readers may have an excuse for pleading lack of comprehension of the facts. "The revenue for the year 1905 from the rental and frontage tax will amount to \$15,998.86, while the sum required to pay the interest and sinking fund on previous loan of \$200,000 is only \$9,310, leaving an annual income assured from present construction over and above this amount of \$9.310 amounting to \$6,688. The amount required to pay interest and sinking fund on the new loan will be \$4,655, leaving \$2,000 for main tenance, which is quite sufficient. Therefore there is ample revenue assured to pay the cost of a fresh loan of \$100,000, so that there is no possibility of the taxes being increased in the slightest degree by reason of the new loan," Consequently ratepayers who believe, and with reason, that taxation in Victoria is sufficiently high already, need be under no apprehension as to the effect of the carriage of the by-law. It is simply a carriage of the by-inw. It is simply a question of those whose neighborhoods have been equipped with all sanitary ap-pliances extending like privileges to their at present less fortunate neighbors. Besides, to a certain degree, the general health of a city is measured by the health of particular sections of it. Disease bred in an insanitary part has a habit of spreading to parts in which the sanitary conditions are as thorough as modern son why the work of sewerage system should be completed as quickly as possible. The fortunate ones who have been equipped already need not comfort their souls with balm for their indifference or elfishness by the reflection that the bylaw does not concern them. It is of vital concern to every resident. That is the chief reason why there should not be a single vote cast against it on Friday. If the ratepayers were unanimous the fact would be a striking tribute to their intelligence, sound sense and enter-

We can hardly expect unanimity on any question that may arise respecting the problems of municipal government in majority should not forget that the polls to east their votes before that hour.

AN HONEST OPINION.

The McBride government is fighting for its candidate in Alberni with a des peration and disregard for fairness which seems to indicate that it feels its life depends upon the result. The Times was on Saturday dealt a solar plexus from a source which it might be had form, if not positively dangerous, to specify. Therefore in our demoralized to complete the sewerage system, was condition the best we can do is to fall back upon the words of our contemporery the Colonist, which, if words mean exything, is very friendly to the Meride administration. Here is the Colonist's opinion of the MeBride government, delivered on the eve of the proregation of the Legislature on Saturday, of the Legislature on Saturday,

gation of the Legislature on Saturday, April Sth:

"It is the general expectation that with to-day's sitting, the 1905 session of the Provincial Legislature will terming ste with an unusual sudderness, and with results and accomplishments in the form of legislation added to the statute book that will not by any means approximate the expectations of the country at the opening of Parliament. It had been beped that a clean-cut and progressive policy would be enunciated and developed, the natural working out of which would be a stimulus given to industry in its varied branches, the encourage ment of population, and an impetus to legitimate provincial growth. With all the world looking to Western Canada, the occasion seemed ripe for accomplishments. But the dying days of the session find few of the roseate hopes destined to realization. The promised railway policy has ended in barren debaring, behind the closed doors of the caucus, of the government in the carrying out of the government as the condition of affairs will be reverted to, and it would certainly be halousand piles to transfer the proposed by law. For years, was adopted.

Should this by-law fall to pass, the old condition of affairs will be reverted to, and it would certainly be halousand piles to transfer the province and in the given by the construction of the given by the construction of the given by the construction t

tion to curfall expenditure in every possible manner. This, however, does not meet the demands of a province aiming to be progressive, and whose natural resources and opportunities, with wise legislative assistance, assuredly destine it for greatness. Instead of assisting natural progress born of individual enterprise, the legislation added to the statute book during the present session has, it deed, a recognized tendency in a contrary direction, as for example in the bill of the member for Nanaimo city further limiting the employment of underground workers in the collieries, out of which it is greatly feared there must come suspension on this Island of one of

which it is greatly feared there must came suspension on this Island of one of its meet important industries. In consenting to the passage of this measure, at in reluctance to present a straightent railway programme, the government of the day will be condemned by many of independent minds in politics for fatal devotion to the shibboleth of expediency. It were infinitely better, these critics will contend the governed discovered the contend to go down to defect were till devotion to the simbolieth of expediency. It were infinitely befer, these critics will contend, to go down to defeat upon the issue of a tangible policy for the betterment of provincial conditions, than to live by grace of acquiescence in ill-considered and even distinctly harmful and cangerous laws. The session ends with

carry on with so variable and insufficient a majority as to make recourse to the support of a party, divergent from its own, a first necessity of existence in power. Hon, Mr. McBride and his ministry it appears, to many would have better-proven their recognition of their duties to British Columbia had they set their political course and held to if even in the face of defeat through devotion to a decisive and consistent Conservative policy recognizing and based upon the conditions and necessities of the province as it recognizing and based upon the condi-tions and necessities of the province as it

In certain parts of the United States when an editor offends against the powers' that be—usually the politicians—he is shot on sight and a jury of the peers of the assassin renders a verdict of justifiable homicide. The politicians of Turkey proceed in a different way, but "get there just the same." A dispatch from Constantinople to a Parisian newspaper announces that Newzad Bey. the chief editor of the Turkish journal Hidmet, published at Smyrna, has been strangled by his warders at the Sultan's command in the prison at Adaua, to which he was recently sentenced. warders subsequently hanged the body at the door of the prison, and Bahri Pasha, the governor of Adana, the Kurd who is said to have organized the Armenian massacres, gave out a statement that the journalist had committed suicide. Thus perish all stirrers up of strife or exposers of official rottenness or turpitude.

We welcome Mayor Barnard's exposition of the case for the sewerage loan by law. his contribution is timely and convincing. But why is it that His Wor ship has nothing to say in favor of the other by-laws that are to be voted on or Friday next, the polls closing at 4 o'clock? Surely as a city of no mean pretensions we ought to have educational edifices of ordinary respectability as to appearance, and our streets should be lighted as nearly as possible in accordance with the modern standard.

Russia has indeed fallen. She is appealing to the nations to stand by during the peace negotiations. She is fearful lest the victorious Japanese may take advantage of her helplessness and exact

THE SEWER BY-LAW.

To the Editor:—As there appears to be some misunderstanding as to the effect of the by-law to enable the borrowing of \$100,000-kfor sewerage purposes, to which the ratepayers are asked to give their assent on the 21st instant, I venture to trespass, upon your valuable space for the purpose of shortly explaining the effect of the by-law, and I do so in the hope that this letter will be read by many of your subscribers who will not read the by-law itself. As the ratepayers are well aware, the scheme of capitalizing the amount of the rentals and sewer frontage tax (or,-in other words, paying the interest and sinking fund on the moneys borrowed out of the rents on the moneys borrowed out of the rents and frontage (ax) and thereby raising money fund necessary to provide for a further loan, and this expectation has been fully

Again there must be taken into account the large saving both to the corporation and the individual ratepayers by reason of the great improvement in the health of the people as shown by the health statistics of the city. In 1103 the amount spent by the city board of health, principally owing to innectious and contagious diseases, and exclusive of the amnual grant to the Jubilee hospital, amounted to \$20,00.12, as against \$13,356.36 for 1904, while on the basis of the expenditure for the past six monus the total cost for health purposes for the present year will not exceed \$10,100 the to a great extent to improved aswers ratepayen of the freedom from illness in their families.

Attempting to Escape.

Rudolps Peterson, an inmate of the provincial penitentiary, died yesterday morning at New Westminster. Early last week Peterson, who was serving a sentence of six months, attempted to make his ascape and was fired on by Special Guard Hutchinson. It was in consequence of the wounds inflicted that his death occurred yesterday.

When he attempted to break away Peterson was working with a gang from the penitontiary at the exhibition grounds. While resting at noon Peterson, who had already served a month, attempted to escape. He made a dash for the woods close at hand. Hutchinson called upon him to stop, but the prisoner never heeded the warning. A shot was fired in the air by the guard, but the fugitive only increased his speed. The next shot fired by Hutchinson was aimed at the prisoner, and the contents took effect in his back. Peterson irropped and was taken to the hospital, but some of the large-sized Juckshot fired from the guard's gun had reached vital organs and his death followed yesterday.

The special guard, it is contended, acted according to instructions and only did his duty in preventing the prisoner's estage.

The more serious the illness the greater the need

BOUNDARY MINES.

The Shipments of Ore For Year Will Exceed One Million Tons.

(Special to the Times.)

Pheepix, B. C., July 13. From the returns made of the ore shipments for the first half of 1905, it now seems certain that the prediction made at the beginning of the year, that the tonnage of Boundary mines for this year would exceed the million ton mark, will be verified by the end of December. The total up to the end of December. The total up to the end of June has shown more than 450,000 tons, and during June and part of May one of the large shippers—the Brocklyn group in this camp—has been temporarily idle. The reorganization plans of the company owning this property provide for extensive work, and this will begin almost any day, according to those best informed. Added to this is the fact that the Granby Co., the largest shipping company in British Columbia, will have its two new furnaces in commission shortly after the list of August, which will give an additional output of those particular mines alone of some 20,000 tons monthly. Or say 100,000 tons monthly, or say 100,000 tons monthly, or say 100,000 tons monthly after the list of August, which will give an addition to the "werage of Granby output of about 50,000 tons monthly. Or say 100,000 tons monthly after the list of August, which will give an additional output of those particular mines alone of some 20,000 tons monthly. Or say 100,000 tons monthly or say 100,000

The output of the Boundary for the several months of 1905, thus far, has been figured to be as follows:

January. 68,074 tons; February. 72,-671 tons; March, 90,047 tons; April, 80,-102 tons; May, 80,044 tons; June, 67,255 tons.

Total for six months, 458,193 tons.

Without having actual reutrns at hand for reference, estimated on a basis of \$5 per ton in value, the value of the output of the Bourdary for the first half of the year 1905 is \$2,290,905, with every pros-pect of the second half of the year, showing as good of even a better valua-tion.

The month of June, for the reason The month of June, for the reason mentioned, shows slightly the smallest tonnage output of any month thus far this year, the figures from the individual mines being approximately as follows: Gramby mines, 50,987 tons; Mother Lode, 14,010 tons; Mountain Rose, 853; Oro Denoro, 482 tons; Emma. 698 tons; Providence, 50 tons; Skylark, 60 tons; Last Chance, 60 tons; miscellaneous, 75 tons. June total, 67,255 tons.

God loves beaut. He who painted the lily and adorned the rose knows the delight of perfect coloring. The Creator is the great artist. Since the harmonious splendors of His inanimate handlwork gives pleasure to His eye, it cannot be that He is pleased with gloom and sombreness in the life of man, the crown of His creation. One season's flowers soon pass away, but the next season's supply is sure. God'a storehouse is never empty. He who has plenty for the fields and the forest, and for the birds of the air, does not lack any g thing for His children's needs.

Who has no inward beauty, none perceives, Though all around is beautiful. · . R. H. Dana.

A gife of flowers is a token of the A gife of flowers is a token of thoughtfulness. They tell the recipient that the giver is thinking of her. And is not that, broadly swited, just what God's world-wide flower garden says to mankind? God thought of us, and therefore he gave us all the beautiful and fragrant blooms of the earth to gladden our senses. Every flower that grows speaks forth the completeness and lavishness of God's love for man.

A sensitiveness to the beauties of nature, and a heart in time with them, usually betokens an aptitude for the more exquisite beauties of the spiritual life.

In God's great garden many kinds of flowers grow; but they are all precious ob-

We may read a secondary meaning in the Great Teacher's "Consider the lilies." He wants us to consider and observe all the wonderful life about us. This is God's world, and in the smallest blade of grass He has written His own messages. Shame

"Flower in the crannied wall,
I pluck you out of the crannies;
Hold you here, root and all, in my hand.

The old Hebrew psaimist saw in the fadling grass of the field a picture of man's
life, and of the evil-doer's prosperity. So

the birds and the four-footed creatures and
the skies and all the beauty of the world
in which we have been placed to learn life's
lessons.

The lily's lips are pure and white,
Without a touch of fire;

EXCURSION TO SKAGWAY.

The C. P. R. is offering a \$50-round trip excursion to Skagway on the steamer Princess May. Tickets will be good until august 15th. Steamers from Puget Sound are doing considerable business in this line, and it is believed that with the concession the company purpose giving in the way of rates travel on the Canadian liner can be materially augmented. The steamer calls at northern British Columbia ports dpring the summer months, and tourists voyaging on her will therefore enjoy this advantage over those travelling on American ships, for the latter are unable to make any calls until reaching Alaska.

Quite a large number of Victorians visited the German cruiser Falke in Esquimalt yesterday, and were shown atout the ship in a cordial manner. The vessel carries a good band, and the music it provides is very enjoyable. To-day the sailors are being drilled on the canteen grounds. It is expected the ship will leave for Vancouver on Wednesday.

VICTORIA WON LACROSSE MATCH

THE SEATTLE TWELVE DEFEATED SATURDAY

Extra Time Played in Order to Decide the Game-Other Sporting Notes

After a sensational game Victoria defeated Seattle in one of the Eritish Columbia lacrosse championship series on Saturday afternoon at Oak Bay. At the failsh of the fourth quarter the score stood 3-3, and it was agreed to continue the contest until a winning goal was secured. By this time tae crowd occupying the grand stand and points of vantage one claser side of the grounds had become very much exteted. The teams were so evenly balanced that it was a question which would prove successful in scoring first, and spectators heid their breath whenever the ball howered about the Victoria team's flags. It was a little over it minutes after the extra quarter had started that the local twelve scored the winning point. This was made on as pretty a plece of combination as one could desire to see, the ball cooling down the field quickly. Bert Hendron assisted with one of his sprints and passed to Murre, who made a neat shot well into the net. Everybody then cheered upproariously, and the Victoria players were shaken by the hands and overwhelmed with congratulations. It must have been grafflying to those who have labored so hard in the interests of he crosse to see such enthalsam displayed, which angurs well for the public parronage

this policy the eatire tweive gathered about the Victoria flags until it looked impossible for the visitors to take the bail through such a defence. But they did it, and within a few minutes after the face-off. Two or three passes, a snot and the bail reposed peacefully in the local team's net. Jonce more the score was even and it remained so until the fluish of the fourth quarter. The tie was played off and remained so until the fluish of the fourth quarter. The tie was played off and remained so until the fluish of the fourth quarter of the protection of the flags, Messrs. Lorimer (8.). Taylor, Clegg, Hatcher and Stevense displayed aplenning judgment, being steady, cool and resourceful under the most trying circumstances. Clegg, who made has first appearance among the seniors of escreves special praise. He is one of the Central intermediates, a smong the seniors of the plorabily so. The combination is not, swith the victoria would have had no difficulty in walking away from the Seattle slaiwarts. Baker was off-color and is not entitled to a place among the seniors on his showing in the past two matches. Fairail, at inside kome, also is lacking in essentials, but may be excused as it was his first march. The same played awong the victoria putting the past two matches. INDIANS DOING WELL.

Printendent Vowell Found Northern Natives Well Advanced in Civilization.

A. W. Vowell, superintendent of Indiau affairs in the province, who returned from Teiegraph Creek a few days ago, reports that the Indians in that part of British Columbia are now quite well advanced in the way of adopting the customs of the whites. The greatest trouble the department has in connection with the alministration of affairs there is the keeping of liquor away from the Indians. On Mr. Yowell's last trip some of the Indians came to him, and apparently thinking that they were far small advanced to permit of a free use of intoxicants, asked the superintnedent if when they were sick it would not be permissable to have liquor so as to hasten they recovery. W. Vowell, superintendent of Indian

recovery.

Long experience with the Indians has taught Mr. Vowell how to deal with them. He quickly informed his suppliants that only in case they got very sick and the doctor advised a little would they be permitted to use. liquor. The superintendent gave them warning that if under any other circustances he heard of their obtaining liquor there would be tenuble.

the idea that they could prescribe for their own ailments in the way anticipat-

their own allments in the way anticipated.

Ine Indians in that part now ask good wages for all kinds of work. The carrying of all supplies for the keeping of the government telegraph line in order from that point is confined to Indians. A large number of pack horses are used in this work, and are cared for by the Indians alone. As an evidence of the careful treatment which the native gives their animals, Mr. Vowell says the horses are all in the best of condition, and unlike most of pack horses are free from all galls or chaffing.

Superintendent Vowell says that the reports from the mines in that section were all very promising. Thibet creek mine, in which Warburton Pike is deeply interested, was, according to the reports brought into Telegraph Creek, giving satisfactory results.

The greatest trouble, however, is the expense of transportation. With railway connection the country could be developed, but without that the distances are too great for transporting the necessary-machinery.

Unqualified Success of Lydia E. Pink ham's Vegetable Compound in the Case of Mrs. Fannie D. Fox.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy, Tumor.

The growth of a tumor is so sly that frequently its presence is not suspected until it is far advanced.

So-called "wandering pains" may come from its early stages, or the presence of danger may be made manifest by profuse menatruation, accompanied by unusual pain, from the ovaries down the groin and thighs.

If you have mysterious pains, if there are indications of inflammation or displacement, don't wait for time to confirm your fears and go through the horrors of a hospital operation; secure

Mrs. Pinkham, of Lynn, Mass., will give you her advice free of all charge if you will write her about yourself. Your letter will be seen by women only. Dear Mrs. Pinkham:—

"I take the liberty to congratulate you on the success I have had with your wonderful medicine. Eighteen months ago my monthlies stopped. Shortly after I felt so badly that I submitated to a thorough examination by a physician and was told that I had a tumor on the uterus and would have to undergo an operation.

Deepening the Shaft on the Centre StarLast Week's Shipments.

Rossland, July 15.—On the ninth level of the Centre Star a station has been cut out and hoisting engine installed for the purpose of deepening the shaft for 200 feet below that level. The purpose is to develop an ore chute which has been opened by a winze extending down from the ninth level for a distance of 180 feet, and which was extended down in pay ore for this entire distance, forming one of the most important chutes ever found in this camp. The work of deepening the shaft will be commenced on Theodom time.

The Junho is being extensively developed on the No. 1 and intermediate levels. The development reveals that the mine is very extensive, and the management states that it has a year ahead of it in showing the extent of the large ore chutes on these two levels. The Jumbo promises to develop into one of the largest mines of the camp.

The following are the shipments of the week: Le Roi, 1,950 tons; Le Roi No. 2, 69 tons; Jumbo, 200 tons; Spitzee, 120 tons; total, 4,200 tons; for the year to date, 181,788 tons.

DETERMINED FIGHT WAGED IN ALBERNI

Opposition Speakers Face Premier at His Own Meeting-Liberal Party is Solid.

The nomination of candidates for the The nomination of candidates for the Alberni bye-election took place at Alberni of Saturday, says a dispatch to the Nanaimo Heraki. The two candidates, Hugh Aitken, of the Nanaimo Herald, representing the Liberals, and Wm. Manson, of Nanaimo, the Conservative standard bearer, were duly nominated. The former was proposed by John King, seconded by W. H., Forest, assented to by Alex, Shaw, B. Labelle, C. F. Bishop and 26 others, including J. F. Mr. Aitken made an excellent imp sion, receiving applause liberally through-out his speech, and many congratulations at the close of the meeting.

at the close of the meeting.

Mr. Macdonald received an ovation, showing the Liberal feeling in Alberni is still as unanimous as it-has always been, in spite of the tremendous efforts made by McBride to stampede them into the Conservative camp. His address was well received, and resulted in cementing the Liberals into a solid body in support of the candidate.

Mr. Sloan was enthusiastically wel-

comed.

At the close of Mr. Macdonald's speech saturday night, J. F. Bledsoe moved a vote of thanks to the speakers, and took occasion to say that any little differences that might have existed among the Liberals would not for a moment cause any break in the ranks. They were still Liberals, and would give the party their support.

Another 'political meeting was held in New Alberni Saturday night by Premier McBride and Mr. Green.
It was known that J. A. Macdonald, leader of the opposition, and Mr. Aitken were in town and would be present, and in the course of the afternoon John Oliver arrived. This was the signal for a'! the people who could possibly attend to come out, and there was considerably over 100 persons present.

THREATENS ACTION.

Unless the morning paper retracts the article it reproduced from one of the San Francisco papers on Saturday regarding the Collins case, it will have to face a shit for criminal libel which it is the intention of Mr. Collins to institute. He says he does not propose to allow the morning paper to reproduce articles which are only published in the first place for the purpose of inflaming public sentiment against him. He expressed surprise that that paper should be so anxious to anison and reprint the tirade-

sentiment against him. He expressed surprise that that paper should be so naxious to assess and reprint the tirade in the Bay City press instead of calling upon him, something its reporters had not yet done. Mr. Collins is busily estagged in looking into the Canadian law on the subject of perjury and will put up a strong fight for his liberty.

It is amusing to contemplate the deadsure attitude of the San Francisco authorities on the extradition aspect. They seem to think that all that is necessary is to send an officer with the papers bearing the signature of the governor and the lawyer will be handed over to them at once. District Attorney Bynington says that Collins will be back in Francisco again within a fortnight, and gave vent to an expression of annoyed surprise when he received the following telegram from Chief Langley:

Victoria, B. C., July 13.—J. F. Dinan, chief of police, San Francisco, Cali: Collins held. His application for discharge dismissed. Case remanded until Wednesday next to permit us securing necessary evidence. We must have the following evidence here by, next Wednesday morning:

"Well, they don't seem to want much," he is reported to have said, and then added that it would not be necessary to send up so large a delegation. Apparently all he intends to send is Detective Gibson with the extradition papers and some depositions. Gibson is expected to reach Victoria to-morrow morning.

This afternoon at 1.30 o'clock James Dean, one of Victoria's most prominent pioneer citizens, passed away at the residence, Oak Vale farm, Richmond avenue. He had been ill with paralysis since last Friday, and in spite of the best medical attention gradually declined until death intervenest to-day. Mr. Denn was 78 years of age and came to Victoria in the employ of the Hudson's Bay Company in 1853. He was a passenger from the Old Country on the ship Norman Morrison, upon which quite a number of other Victoria pioneers came to make their homes on the shores of Western Canada. He was a native of Section 130 of the Canada. He was a native of the company of the ship of the company in 1853.

Since his arrival in this country more than half a century ago Mr. Dean has had an interesting career. He devoted a large part of his time and aftention to a study of Iadian lore, his connection with the Hudson's Bay Co. enabling him to pursue his favorite occupation with exceptional facility. For some years he continued with the company, after which he took up geological surveying. He continued in his study of the customs and the various dialects of the Indians of Brifish Columbia. After a time he became thoroughly familiar with all these languages, and was able to converse with members of any tribe of Indians belenging to the North Pacific coast. About this time he published one of two books of Indian stories, which are still read with interest. His familiarity with the natives led to his appointment to take charge of the British Columbia Indian exhibit at the World's fair in Chicago.

THE TOURIST TRADE.

Greatly in Excess of That of Last Year -Hotels Are Full.

Victoria's tourist trade so far this This statement is based on statements of botel keepers and transportation agents

The city is full of strangers who see and

are charmed with the scenery and climate; but are not overly entertained

climate; but are not overly entertained with amusements.

"We want more amusement for our guests in the evening," said a prominent hotel proprietor. "It is all very well to drive them around in the day time; this they like and enjoy; but they want entertainment in the evening, and this we are unable to provide them with unless we direct them to "take in" the small we direct them to "take in" the small

while here."

The statement of this hotel proprietor is what is infrequently heard.

The hotels at present are filled. The clerk at the Dominion said this morning that that house was crowded with guests, and he estimated that the business in June was fully twenty-five per cent, ahead of that of last year.

C. A. Harrison, proprietor of the Driard, reports that the tourist trade this year was undoubtedly better than that of last year. His place is well filled all the time.

Other hotel managers are also in good spirits over present conditions, and say

are unable to provide them with unless we direct them to "take in" the small whows. What should be here is a good theafre, open every night, winter and summer. I inquired of the owner of the V ctoria what he would rent his house for, but he gave me a figure which was practically prohibitive. My guests ask regularly to be told of some place of amusement in the evening, and they are often heard to complain if there is a lack of such. This is something Victorians working for the welfare of the city should bear in mind. If there were those pleasure steamers running about, tourists would find more to interest them while here."

Tacoma, July 16.—After brooding over suicide for several years, Casper Gardner finally ended his life by jumping into Spanaway lake Friday night. Gardner was 87 years old and had been despondent for several years past owing to his inability to provide for himself. A short time before he took his life he told three persons that he was tired of living, but inasmuch as he had frequently made these threats for many years, little or no attention was paid to them.

Gardner had been a resident of the county for about twenty years, and has been in and about Spanaway for the county for about twenty years, and has been in and about Spanaway for the greater part of the time. He worked as a laborer, but in the last four years had not been able to do much for himself and had, to rely upon charity. He was frequently an inmate of the county poor farm at Sumner, and had left that institution about two months ago.

He was last seen alive Friday night about 9 o'ciock.

Gardner was born in Switzerland and how knows where she lives.
